## INDUSTRIAL

INDUSTRIAL VFD PANEL

### Features

#### Economical

Phase Technologies configured panels deliver industrial-grade performance without the price tag because we manufacture and bottle the VFD and panel in-house, right here in America.

#### Small Footprint

Enjoy all the benefits of industrial three-phase motor control without the huge footprint of other panel manufacturers.

#### Serviceability

Our DX configured panels are very simple to service; the modular design allows for easy swapping of parts in addition to a simple installation experience.

#### Phase Converting Capabilities

The DX auto-configures for phase converting capabilities at a derate.

#### Built Around Our DXL Series VFD

Phase Technologies DXL model is a high-performance variable frequency drive (VFD) designed to deliver the best value across industries.
