## Remote Uplink

**Anywhere a cellular signal is present**

Phase Connect™ links with all major cellular networks for the widest coverage.

## Universal Integration

**Connect to any manufacturers' equipment**

Phase Technologies' simple integration allows Phase Connect™ to interface with any pump controller that has auxiliary control.

## Extend Pump Life

**Equipment protection**

Monitor cycle counts and run time to ensure pumps are running as they were designed.

## Monitor All Irrigation Applications

**Regularly audit equipment performance**

Manage and control tank level, pressure, flow, and depth.

## Receive Notifications On Any Device

**Programmable alerts**

Receive text and email notifications to ensure timely response to sites that require attention.

## Best Value On The Market

**Phase Connect™ - the obvious choice**

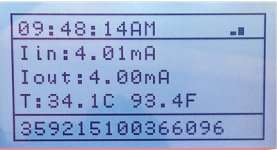

Low upfront cost with a year of service included. Low cost plans after the first year.

# PHASE CONNECT™

## Specifications

Part Number	PC4R
Input Voltage	Accepts 100 - 480 VAC
Dimensions	11.73" x 9.07" x 6.22"
Weight	4 lbs
Enclosure	NEMA 3R
Network Connection	All major cellular networks
Accessories	Antenna with magnetic base
Inputs	2 digital   1 analog
Outputs	2 digital   1 analog
