All pricing, specifications, line drawings, quick start guides, and product manuals are available in a digital-only format. The manuals and supporting documentation can be found at: <https://www.phasetechnologies.com/download>

To use the Excel files on the pricing download page, open the .xlsx file using Microsoft Excel.

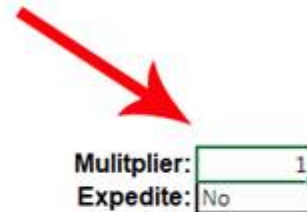

Navigate to the bottom left and choose the correct product series by clicking on the corresponding tab.

After selecting the appropriate tab, type in your multiplier for that product line and hit enter.

1 = List price
